USA

15. Dezember 2021

To our stakeholders

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

Our commitment started on January 13th, 2021. Since that date, we have published our 2020 sustainability report (available here).

Then a new sustainability report, with 2021 data, will be published in April 2022, therefore after the deadline of January 13th, 2022. This report will integrate our actions, targets and achievements on many topics including the ones required by the UN Global Compact.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by April 13th, 2022 at the latest.

Sincerely yours,

....

Christophe Clemente
