BINA NUSANTARA

BINUS University evolves from a humble beginning.
It began as a *Modern Computer Course* (MCC) which was established on October 21st, 1974.
Its rapid growth led to the establishment of Computer Engineering Academy in 1981, which was evolved into Management and Bina Nusantara Computer Science Academy in 1985. A year later, it became Management and Computer Science School, which finally evolved into the establishment of BINUS University in 1996.

BINUS Higher Education – **VISION**

Fostering and empowering the society in building and serving the nation.

(BINUSIAN) Fostering and empowering the society in building and serving the nation through nurturing exemplary character, advancing knowledge and promoting innovation (creative, process, technology).

BINUS Higher Education – **MISSION**

- Positioning BINUSIAN as our centrepiece strategy in everything that we do
- Fostering BINUS dharma as our philosophy in education systems, management, and deliverables.
- Leveraging best practices in managing and operating our higher education system, and consistently and innovatively raising the bars.
- Reaching out to and engaging society with BINUS.
- Promoting and capitalizing our intellectual properties, Nusantara's diversity and wisdom.
