(PDF file, 15.8 MB)

To get you started, here is our top ten achievements and challenges from 2010. We talk more about these topics in the report.

- 1. Achieving our climate strategy targets**
- 2. Creating a Human Rights approach and metrics**
- 3. Ranking No.1 in our sector on the Dow Jones Sustainability Index**
- 4. Making Nokia Data Gathering open source**
- 5. Introducing industry firsts in sustainable materials**
- 6. Partnering with the International Union for Conservation of Nature on the Save our Species (SOS) project**

- 7. Granting our first Supplier Sustainability Award**
- 8. Adjusting to green energy availability**
- 9. Gaining better traceability to origins of raw materials**
- 10. Creating a recycling culture across the EU**

Nokia's President and CEO Stephen Elop was interviewed for the report, here are some highlights from the interview which can be found in full from the report.
