USA

Dear Mr. Secretary-General,

I am pleased to confirm that Amgen Inc. supports the Ten Principles of the United Nations Global Compact on human rights, labor, environment and anti-corruption (the "Principles of the UN Global Compact"). With this communication, we express our intent to advance and support those principles within our company. Our commitment is to make the Principles of the UN Global Compact part of how we develop strategies and operate and to engage in collaborative efforts which advance the broader development goals expressed in the UN Global Compact. We note that the support for the Principles of the UN Global Compact may be implemented differently in different countries, in keeping with local laws and customs.

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the Principles of the UN Global Compact. To further this, we will make our commitment to support the Principles of the UN Global Compact publicly available and report on progress within one year of joining the UN Global Compact, and annually thereafter in a manner consistent with UN Global Compact COP Policy.

Sincerely yours,

Robert A. Bradway
Chairman and Chief Executive Officer
