Dear Sir

I am pleased to confirm that Epsilon Publishers supports the ten principles of the Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express our intent to implement those principles. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engage in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Epsilon Publishers will make a clear statement of this commitment to our stake holders and the general public.

We recognise that a key requirement for participation in the Global Compact is the annual submission of a Communication of Progress (COP) that describes our company's efforts to implement the ten principles and support any specialised UN Global Compact issue platform that our company may join at a later date. We support public accountability and transparency and therefore commit to report on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy.

This includes

(i) A statement signed by the Chief Executive expressing continued support for the Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the Global Compact.

(ii) A description of practical actions (i.e. disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the Global Compact principles in each of its four issue areas (human rights, labour, environment, anti-corruption).

(iii) A measure of outcomes (i.e. the degree to which targets/performance indicators were met, or other qualitative and quantitavtive measure of results.)

Yours sincerely

R. Mumbi Gichuhi (Mrs.)
Managing Director
