

United Nations Global Compact – Communication on Progress

Infosys statement for Criterion 37: The COP describes publication of sustainability information related to each individual subsidiary separately or referenced explicitly in the Communications on Progress of Corporate Headquarters

“Our Annual Report and Sustainability Report capture social and economic dimensions of our performance across the corporation, including our subsidiaries. The Infosys Sustainability Policy is applicable across the Infosys group.

Our facilities in India are owned by us making it easier to implement EMS 14001 and OHSAS 18001 guidelines. 95% of the revenues of the corporation is generated from our EMS and OHSAS certified sites.

Our offices outside India are primarily leased facilities and this limits our ability to fully implement environmental sustainability practices at these locations. We are working on a phased implementation of our environmental sustainability practices across our subsidiaries worldwide.”

About Infosys

Many of the world's most successful organizations rely on Infosys to deliver measurable business value. Infosys provides business consulting, technology, engineering and outsourcing services to help clients in over 30 countries build tomorrow's enterprise.
