

To our stakeholders:

I am pleased to confirm that KGH Customs Services AB reaffirms its' support to the Ten Principles of the United Nations Global Compact in the areas of Human Rights, Labour, Environment and Anti-Corruption.

In this annual Communication on Progress we describe our actions for continuous integration of the Global Compact principles into our business strategy, culture and daily operations.

The main focus in 2012 has been improved consolidation of UN Global Compact's principles in our already existing framework of policies regarding human rights and labor that guide our daily operations. Additionally we have initiated the process of updating our policies in the area of environment and anti-corruption that will better meet the guiding principles of the Global Compact.

Practical actions taken in the last year are summarized in our Communication on Progress, and incentives in the areas of Environment and Labour are also communicated through our Annual Report. We also commit to share this information with our stakeholders using our primary channels of communication such as the KGH News Letter.

Yours Sincerely,
