

## **CEO COMMITMENT TO THE GLOBAL COMPACT**

Alstom is one of the world's leaders in power generation and rail transportation.

The Group's products and services shape the future infrastructure markets, thereby directly impacting the living and working conditions of people across the globe. Alstom is reputed for setting the benchmark in innovative and environmentally-friendly technologies. We are also well known for our broad product range and our commitment to meeting the growing needs of our clients for clean, efficient and sustainable power and transport technologies.

But in today's world, we need to go a step further to proactively address economic, environmental and social concerns. Alstom therefore strongly supports the United Nations Global Compact and its ten principles in business activities and is actively involved in the Global Compact network.
