18th July 2013

To our Stakeholders:

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We are late in creating, sharing and posting our COP report this year and would like a grace period to complete the same. Our Sustainability Report will be hosted on our website by 25th August 2013. We have already hosted the Business Responsibility Report (based on the NVG guidelines), submitted our CDP response and completed the DJSI sustainability assessment for 2012-13 in addition to submitting an integrated view of our performance on economic, social and environmental aspects in our Annual Report for 2012-13. The timelines of all these assessments and reports have overlapped in the last 45-60 days causing a delay in the publication of our sustainability report. Going forward, we will work to integrate these better into our reporting cycles to ensure the COP update on time.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by 18th October 2013 at the latest.

Sincerely yours,

Ms. Aruna C. Newton
AVP – Infosys Ltd.
