To our stakeholders:

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We are in the process of creating a new COP report given the creation of our new company Anheuser-Busch InBev.

We believe this new report will be provide stakeholders with an up-to-date account of the most relevant actions of the combined company and a clear articulation of our dream and detailed plan to become the Best Beer Company in a Better World.

We hereby ask for an extension period (against the former InBev's COP deadline) to adjust to a new reporting cycle for the combined organizations.

This will allow us to post a COP that describes our new company's global efforts and a continued commitment to implement the principles of the UN Global Compact.

Our new COP report will be posted on the UN Global Compact website by May 2010.

Kind regards,
