Statement of continued support from The Mosaic Company CEO Jim Prokopanko

May 1, 2014

To our stakeholders:

In our second annual Communication on Progress (COP), The Mosaic Company affirms our continued support for the United Nations Global Compact (UNGC) ten principles in the areas of human rights, labor standards, the environment and anti-corruption.

As the world's largest supplier of phosphate and potash, our mission is to help the world grow the food it needs. We consider this mission to be a compelling one that carries vast opportunity and responsibility. Despite rapid change in today's business environment, our core values remain the same: Integrity, Excellence, Sustainability and Connectivity. These values, aligned with the UNGC's ten principles, shape our strategies and goals. The Mosaic Company's COP highlights our company's commitment to reinforcing the ten principles across our entire enterprise.

The Mosaic Company commits to uphold the highest standard of ethical conduct, environmental stewardship and social responsibility in all we do. We are proud to share our progress since becoming a signatory to the UN Global Compact in 2011. Our commitment to transparency is demonstrated in The Mosaic Company's sustainability report which outlines our progress using Global Reporting Initiative framework. The Mosaic Company's most recent sustainability report can be found at <http://www.mosaicco.com/sustainability>.

Very truly yours,
