Dear Mr. Secretary-General,

I am pleased to re-affirm the continued support of Kozloduy NPP EAD for the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express our intent to recommit to implementing those principles, making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Kozloduy NPP EAD will make a clear statement of this commitment to our stakeholders and the general public.

We recognise that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress within *one year* of joining the UN Global Compact, and *annually* thereafter according to the UN Global Compact COP policy. We have to admit that over the past few years we have failed to issue a COP due to major changes in the plant organisational structure, re-allocation of duties and responsibilities, various engagements in the delivery of significant large-scale projects for plant life extension, etc. Under the current conditions, however, we can positively re-confirm our strong intent to plan and perform future activities in line with the UN Global Compact goals and report on them accordingly.

Sincerely yours,

Nasko Mihov
Chief Executive Officer
