February 18, 2021

Dear Mr. Secretary-General,

On behalf of **Atlas Corporation**, I would hereby like to express our fullest support for the Ten Principles of the UN Global Compact.

Atlas Corporation and its' subsidiaries, Seaspan Corporation and APR Energy, have through the years maintained a strong focus on sustainability, health and safety and anti-corruption. We are intent to continue to promote these areas of good business conduct and hereby commit to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our companies and to engage in projects with the aim to advance UN's Sustainable Development Goals. **Atlas Corporation** will make a clear statement to this effect to our stakeholders and the general public in our Sustainability Reports.

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a "Communication on Progress" ("COP") that describes our efforts to implement the Ten Principles and develop our business in accordance with the Sustainable Development Goals. We support public accountability and transparency and therefore commit to inform on progress as an integral part of our Sustainability Report, which we will issue annually from 2021. In accordance with the UN Global Compact COP policy, our reports will include;

- A statement signed by the Chief Executive expressing continued support for the UN Global Compact and renewing our commitment to the initiative and its principles.
- An overview of the practical actions that the company has taken (or plans to undertake) to implement the UN Global Compact.
- A statement of progress on our stated goals and ambitions.

Sincerely yours,

Bing Chen
President & Chief Executive Officer
Atlas Corporation
