Re: Letter of Commitment, United Nations Global Compact

Dear Mr. Secretary General,

Assent Compliance is committed to doing business responsibly and helping to create a better world.

We support the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption, and are dedicated to advancing these principles throughout our strategies, operations and business relationships. We also commit to taking action in support of broader United Nations goals, such as the Sustainable Development Goals.

We recognize that accountability and transparency are important components of responsible business. Assent Compliance therefore commits to communicating our progress on implementing the Ten Principles with our stakeholders and the general public. As such, we commit to submit a Communication on Progress within one year of joining the United Nations Global Compact, and annually thereafter, according to the United Nations Global Compact Communication on Progress policy. It will include:

- A signed CEO statement expressing continued support for the United Nations Global Compact;
- A description of practical actions taken to implement the Global Compact principles in each of the four issue areas; and
- A measurement of outcomes.

Sincerely yours,

Andrew Waitman
Chief Executive Officer
