Dear Mr. Secretary General,

I am pleased to confirm that Business Finland supports the Ten Principles of the UN Global Compact with respect to human rights, labor, environment, and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles. We are committed to making the UN Global Compact and its principles part of the strategy, culture, and day-to-day operations, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Business Finland will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following ways: Business Finland will implement the UN Global Compact's Ten Principles through our own strategy and operations and/ through our role in supporting our customers in developing more sustainable practices and solutions, demanding more sustainable practices from our customers, helping companies to create greater value together, ensuring our own operations are sustainable, and influencing the public agenda and business environment. Encourage businesses and other organizations we interact with to participate in the UN Global Compact.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours
Business Finland

Nina Kopola
Director General
