Nexi SpA supports the Ten Principles of the United Nations Global Compact

Dear Mr. Secretary-General,

I am pleased to announce that Nexi SpA supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment, and anti-corruption.

We are committed to making the UN Global Compact and the principles as a central part of our strategy, the culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Nexi SpA will make a clear statement of this commitment to our stakeholders and the public.

We recognise that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the UN Global Compact and following that on an annual basis according to the UN Global Compact COP policy. This includes:

- A statement signed by the chief executive expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate and in addition to our initial letter of commitment to join the UN Global Compact.
- A description of the practical actions that we have taken or plan to undertake to implement the UN Global Compact principles in each of the four issue areas (human rights, labour, environment, anti-corruption).
- A measurement of outcomes that includes a description of our results and progress in meeting our sustainability targets.

We look forward to contributing to the UN Global Compact, and to support the acceleration of the UN Sustainable Development Goals.

Sincerely yours,

Paolo Bertoluzzo
Chief Executive Officer
