Dear Mr. Secretary-General,

Invescore NBFJ JSC seeks to operate responsibly and promote sustainable finance by offering our customers with greener products and supporting environmentally, socially responsible customers. I am delighted to confirm that by making this statement, we announce our intention to maintain and put into effect the ten principles of the UN Global Compact with regard to human rights, labor, the environment, and anti-corruption.

We are committed to implementing the UN Global Compact and its guiding principles into our company's strategy and culture, including daily operations and engaging in collaborative initiatives that help advance Sustainable Development Goals and other broader UN goals for development. We will be transparent and upfront with our stakeholders and the general public about this commitment. We are aware that the submission of an annual Communication on Progress outlining our company's efforts to put the Ten Principles into practice is a crucial criterion for joining the UN Global Compact. As we support public accountability and transparency, we are committed to reporting on our progress within a year of signing the UN Global Compact and afterwards every year in accordance with the UN Global Compact COP policy. This includes:

- A statement signed by the chief executive expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the UN Global Compact.
- A description of practical actions (Le., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the UN Global Compact principles in each of the four issue areas (human rights, labor, environment, anti-corruption).
- A measurement of outcomes (Le., the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

Sincerely yours
