Dear Secretary-General,

I am pleased to confirm that Norm OJSC supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express our commitment to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Norm OJSC will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (CoP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress starting the calendar year after joining the UN Global Compact, and *annually* thereafter according to the UN Global Compact CoP policy. This includes:

- A statement signed by the chief executive expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the UN Global Compact.
- The completion of the online questionnaire of the Communication on Progress through which we will disclose our company's continuous efforts to integrate the Ten Principles into our business strategy, culture and daily operations, and contribute to United Nations goals, particularly the Sustainable Development Goals.

In this context I would like to inform you that with various activities we already advance the Sustainable Development Goals. With support from UNIDO and EU we prepared a Resource Efficient and Cleaner Production report. In March 2023 I personally participated in the 2023 Regional Forum on Sustainable Development for the UN-ECE region. Also, Norm OJSC as a member of Global Cement and Concrete Association (GCCA) committed itself to more sustainable and low carbon operations.

Sincerely yours,

Henning Sasse
