

October 8th, 2023

H.E. António Guterres
Secretary-General
United Nations
New York, NY 10017
USA

Dear Secretary-General,

I am pleased to confirm that Carbon Edge Corporation unequivocally supports the Ten Principles of the United Nations Global Compact concerning human rights, labor, environment, and anti-corruption. We at Carbon Edge Corporation understand the pressing global challenges and the paramount importance of these principles in addressing them.

By way of this letter, I wish to express Carbon Edge Corporation's wholehearted commitment to embedding the UN Global Compact and its principles into the core of our company's strategy, culture, and day-to-day operations. Further, we are eager to participate in collaborative projects that not only advance the UN's broader development objectives but particularly champion the Sustainable Development Goals. We pledge to communicate this commitment transparently to our stakeholders and the broader public.

We are acutely aware that a fundamental criterion for active participation in the UN Global Compact is the annual submission of a Communication on Progress (CoP). This report delineates a company's sustained efforts in championing the Ten Principles. In the spirit of upholding public accountability and transparency, Carbon Edge Corporation hereby commits to producing a CoP starting from the calendar year subsequent to our induction into the UN Global Compact. We shall continue to do so annually, in adherence to the UN Global Compact CoP guidelines. Specifically, our commitment entails:

The crafting of a statement, distinct from our preliminary commitment letter, endorsed by our chief executive. This statement will continually reiterate Carbon Edge Corporation's unwavering support for the UN Global Compact while reaffirming our ongoing allegiance to its principles and objectives.

Diligent completion of the online questionnaire encompassed within the Communication on Progress. Through this instrument, Carbon Edge Corporation will transparently disclose the measures we have undertaken to integrate the Ten Principles holistically into our business paradigm. Additionally, we will elucidate our continuous endeavors to bolster United Nations directives, with a particular focus on the Sustainable Development Goals.

Thank you for spearheading such a pivotal initiative. Carbon Edge Corporation looks forward to actively contributing to its mission and championing ethical and sustainable business practices.

Sincerely yours,

Mr Joseph Clavet
CEO, Carbon Edge Corporation
