Dear Secretary-General

I am pleased to confirm that Kgalagadi Resources Development Company (Pty) Ltd t/a Solar Power supports the Ten principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. Since our incorporation in 1976 these basic tenets have been at core of our mission and our business ethic. With this communication, we express our commitment to make the UN Global Compact and its principles part of the strategy, culture and day to day operations of our company and to engage in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Solar Power will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (CoP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress starting the calendar year after we join the UN Global Compact and annually thereafter according to the UN Global Compact CoP policy. This includes:

- A statement signed by the Chief Executive Officer expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the UN Global Compact.
- The completion of the online questionnaire of the Communication on Progress through which we will disclose our company's continuous efforts to integrate the Ten Principles into our business strategy, culture and daily operation, and contribute to United Nations goals, particularly the Sustainable Development Goals.

We look forward to close collaboration with the United Nations in this global compact.

Sincerely

Jonathan Raheem Hosseini  
Managing Director
