Dear Secretary-General,

This is to inform you that Tau-Ken Samruk JSC in 2013 was registered in the United Nations Global Compact, but in 2016 it was excluded from the list of active participants, due to the fact that the organizational structure and management in the company repeatedly changed, in this regard, a progress report on the commitment to the principles of the United Nations Global Compact was not provided. In addition, please be informed that Tau-Ken Samruk JSC continues to support the ten principles of the United Nations Global Compact on Human Rights, Labor, Environment and Anti-Corruption for 10 years since its registration in the Global Compact. To prove our words, we will provide Annual Reports for the last 5 years on our activities and commitment to the principles of the United Nations Global Compact.

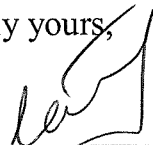

With this message, we express our commitment to making the United Nations Global Compact and its principles as a part of our company's strategy, culture and day-to-day operations, as well as participating in joint projects that contribute to the achievement of the broader United Nations development goals, in particular the Sustainable Development Goals. Tau-Ken Samruk JSC will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the United Nations Global Compact is the annual submission of a progress report (CoP), which describes our company's efforts to implement the Ten Principles. We support public accountability and transparency and, therefore, commit to reporting on progress starting in the calendar year after joining the United Nations Global Compact and then annually in accordance with the United Nations Global Compact Policy (CoP). This includes:

- A statement signed by the Chief Executive expressing continued support for the United Nations Global Compact and reaffirming our continued commitment to the initiative and its principles. This is separate from our initial letter of intent to join the United Nations Global Compact.

- The completion of the online questionnaire of the Communication on Progress through which we will disclose our company's continuous efforts to integrate the Ten Principles into our business strategy, culture and daily operations, and contribute to United Nations goals, particularly the Sustainable Development Goals.

Sincerely yours,

Bakyt Chirchikbayev
