Dear Secretary-General Guterres,

I am pleased to confirm that Greenhope, a national biotech company based in Indonesia, supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption.

We acknowledge the significance of the United Nations Global Compact in promoting responsible business practices and advancing sustainable development worldwide. Greenhope is fully committed to integrating the UN Global Compact and its principles into the core of our company's strategy, culture, and daily operations.

Furthermore, we are eager to engage in collaborative projects that align with the broader development goals of the United Nations, particularly the Sustainable Development Goals (SDGs). By actively participating in initiatives that address global challenges, we aim to contribute meaningfully to the achievement of these ambitious targets.

As part of our commitment to transparency and accountability, Greenhope pledges to submit an annual Communication on Progress (CoP) report, detailing our efforts to implement the Ten Principles of the UN Global Compact. This report will outline the steps we have taken to integrate these principles into our business practices and contribute to the realization of the SDGs.

Our commitment to the UN Global Compact extends beyond mere words. We understand the importance of taking tangible actions to drive positive change and uphold the values espoused by the Global Compact.

In line with the requirements of the UN Global Compact, Greenhope will:

- Provide a signed statement from the chief executive expressing continued support for the UN Global Compact and reaffirming our commitment to its principles.
- Complete the online questionnaire of the Communication on Progress to disclose our ongoing efforts to integrate the Ten Principles into our business strategy, culture, and operations.

By adhering to these commitments, Greenhope aims to set a precedent for responsible corporate citizenship and contribute to building a more sustainable and inclusive global economy.

Sincerely yours,
Greenhope
