## LETTER OF COMMITMENT

Dear Mr. Secretary General

I am pleased to confirm that Switzerland Global Enterprise (S-GE) supports the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s):

- S-GE reflects the UN Global Compact's principles through its own strategy and operations.
- S-GE commits to promoting sustainable business practices among the Swiss companies. This includes providing guidance, resources, and best practices on sustainability with a focus on internationalization and supply chains.
- S-GE organizes (further) events with UNGC to raise awareness among companies in the area of sustainability, particularly with regard to ESG reporting.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

Dr. Simone Wyss Fedele  
Chief Executive Officer
