CEO COMMITMENT TO THE GLOBAL COMPACT

Alstom is one of the world's leaders in power generation, electrical grid and rail transport.

The Group's products and services shape the future infrastructure markets, thereby directly impacting the living and working conditions of people across the globe. Alstom is renowned for setting the benchmark in innovative and environmentally-friendly technologies. The Group is also well known for its broad product range and its commitment to meeting the growing needs of its clients for clean, efficient and sustainable power and transport technologies.

In today's world ever evolving, Alstom contributes proactively to providing solutions to economic, environmental and social concerns. Alstom therefore strongly supports the United Nations Global Compact via its active involvement in the Global Compact network and its compliance with the ten Global Compact principles for business activities.

A handwritten signature in dark ink, appearing to be "Patrick Kron", written over a horizontal line.
