Consulting Engineering Center (CEC - Sajdi & Partners)

COP - 2017

Statement of continued support by our MD, along the following lines:

“Consulting Engineering Center (CEC - Sajdi & Partners) have joined the UN Global Compact Initiative in 2015, while becoming an ACTIVE Member in 2016. In continuing our commitment to integrate the Global Compact principles into our strategies, operations, culture and narrative, we are submitting our second COP for the year 2017. As always, we are committed to communicate our Sustainability Report with our stakeholders via our various channels of communication: Newsletters, awareness prompts, social media, profiles and pamphlets and our website.

Sincerely yours,

Eng. Izzat Sajdi
Managing Director
CEC, Jordan, COP for 2017

This is our **Communication on Progress** in implementing the principles of the **United Nations Global Compact** and supporting broader UN goals.

We welcome feedback on its contents.

Human Rights Principles

Assessment, Policy & Goals:

CEC has always been committed to excellence by following the universal standards of operation at all levels. This is seen in our Core Values which is represented in the following statement:” We are Committed to our clients -through Excellence- to provide our services with Integrity and Respect.” In addition, our up-to-date ISO, EFQM, FCIC and the KAIIE are certifications and awards attesting to our commitment to the Human Rights Principles, which is one of the components of these certificates’ methodologies. Moreover, our latest commitment to join, contribute and attend the UN Leaders’ Summit in NY, 2016 also is evidence to our commitment to the issue. Our Goal is to communicate our commitment to the labor principles to our stakeholders. Here is a brief of what each accreditation is:

- EFQM:** Recognized for excellence Certificate (R4E) (3 Star-2012) from the European foundation for Quality Management
- FCIC:** Federation of Consultants from Islamic Countries (FCIC)
- KAIIE:** King Abdullah II Award for Excellence (the highest award at the local Level)

Implementation:

CEC’s implementation of the Human Rights issue is seen in the following:

- CEC has a Quality Procedure Manual which every employee is familiar with, have access to and is required to follow at all times.
- Suggestion Box, Suggestion Form, Open Door Policy and Internal email or Memos are all ways to connect directly and discretely with upper management.
- Awareness prompts that are given on a quarterly basis in various formats from emails, presentations to surveys. These prompts keep our employees aligned which is one of our strategic objectives. One of the awareness promotes that was conducted this year was presented by the Global Compact Network Jordan by Eng. Aya Mansour (the contact person for the UNGC in Jordan) after a request from the CIM unit at CEC. A presentation about the UNGC 10 principles and the 17 SDGs was presented to CEC employees.
- CEC participated in the CGNJ activities and events. One such event was entitled “Our Renaissance in Our Partnership”; a session about the 10th principle of the UNGC (Anti-corruption) and its relevance to the MENA region.
- Implementing the CSR’s Action Plan for the year.

- Our Social and Cultural Committee was formed in 2006. The members are elected on an annual basis aiming to provide a platform of synergy between the employees and management.

The Corporate Image Management unit was formed in 2009. This unit's duties and responsibilities are to demonstrate CEC's corporate image and the added value of our services, as well as, to enhance the culture of Self Responsibility and Corporate Social Responsibility. Moreover, the CIM unit has specific procedures (CSR Manual) and develops a yearly action plan. The manual is annually reviewed and the action plan's outcomes are measured and communicated with our stockholders. Since 2014, and for each year thereafter, we have supported an NGO which aims to bridge the gap between formal education and the labor market's needs. We contribute with our volunteers in the designated schools of their choice.

Measurement of Outcomes:

Being a Strategy-Focused company, we have opted to use the Balance Scorecard Strategy tool to measure our strategic objectives on a five-year basis. This tool has been implemented since 2006 and we are now in our third 5-year strategy cycle. From our Balanced Scorecard then, we have objectives, initiatives, measures and/or targets.

Following is what is relevant to the Human Rights issue:

- Quarterly review meetings are held to review the Balance Scorecard Strategy measures of outcomes or KPI's.
- Each of our employee has a job description and procedures specific to his/her job and are audited internally and externally every year.
- We require our business partners and our staff to abide by the safety requirements: from enforcing safety gear on construction sites, to the safety measures to the public in the area. This is followed up by the Quality Department at project sites.
- We abide and require our business partners to work on an "Environment Assessment" for each project. This is part of our Project Quality Plan (PQP) which is also included in our Procedure Manual.
- Our Environment Policy has objectives, initiatives, measures and is reviewed on a yearly basis. The outcome of the review is a new action plan for the following year.
- The "Core Values Commitment Questionnaire" has been conducted on a quarterly basis for several years now. The results are measured against their target and compared to the previous year. Preventive measures are taken for falling short of the target.

- While we give equal opportunity to candidates, we use the standard procedure for recruitment to ensure that we hire the most competent employee irrespective to gender, religion, or race. Our equality for hiring is seen in the fact that our male to female ratio is at 54 % and our hiring is posted on our website, social media and local newspapers.
- Neighborhood Questionnaires are made on a yearly basis to make sure that none of our staff have violated their parking spaces, privacy or have committed any other misconduct.
- Ergonomics Survey is conducted every two years to look into the needs and complaints of our staff. Recommendations are made and sent to the management for approval. It was noticed that the results of the survey that was conducted in 2017 was at 82.2 % compared to the result of 2015 which was at 76.1%.
- Employee Satisfaction Survey is conducted on an annual basis covering issues such as: general working conditions, pay and promotion potential, use of skill & abilities. Actions are taken by our management to insure a high level of employee satisfaction.
- Reviewing CSR's KPI's at the end of each year brings about the new changes that need to be done in our next CSR action plan.
- The Social and Cultural Committee end of year evaluation by the staff through independent survey.

Labor Principles

Assessment, Policy & Goals:

Our Manual Procedure covers not only the duties and responsibilities of each job at the company, but provides the employees' labor rights as well. We have a dedicated resource that monitors and mandates labor laws. Our Strategic Objective of "Enhance Knowledge Management" under the learning and growth perspective engages the employees while providing them with a platform for freedom of

association and collective bargaining. This goes hand in hand with the Social and Cultural Committee discussed earlier. Our Goal is to communicate our commitment to the labour principles to our stakeholders and to maintain our compliance with labor laws and other official holidays.

Implementation:

- Our Procedure Manual, as well as, the New Employee Handbook provide the knowledge of labor rights- among other information- regarding the employee.
- Medical Insurance Coverage
- Social Security.
- Suggestion Box, Suggestion Form, Open Door Policy and Internal email or Memos are all ways to connect directly and discretely with upper management.
- Awareness prompts that are given on a quarterly basis to inform employees regarding new labor laws or health issues. One such presentation was “Ergonomics” presentation.
- Continuous Human Resources and the Finance departments’ training and up- to - date knowledge on the local labor laws. They are the dedicated resource for labor rights.
- Based on our management’s belief of the importance of work-life balance, the working hours have been reduced one hour a day in 2011. The number of weekly working hours at CEC became 41.25 h versus 48h by labor law.
- CEC is committed to the official holidays announced by the government due to religious, national and other occasions.
- The Social and Cultural Committee provides a platform for employees to voice their opinions and thoughts. There are many activities made by SCC during the year. For an example, arranging outdoor lunches, celebrating national and religious occasions, arranging for the yearly picnic and many other activities. SCC members are elected each year by CEC employees.
- Our Incentive Program Fast Track is disclosed to our employees and is reviewed periodically.
- Our Information Management System is an open domain to our employees. It includes the official manuals on labor laws and the updated social security benefits.
- Tuesday Talk: A weekly meeting where an employee picks a random topic to talk about for 3 minutes in front of the attendees, giving the speaker the opportunity to train and experience public speaking.

Measurement of Outcomes:

Being a Strategy-Focused company, we have opted to use the Balance Scorecard Strategy tool to measure our strategic objectives on a five-year basis. This tool has been implemented since 2006 and we are currently in our third 5-year strategy cycle.

Following is what is relevant to the Labor Principles issue:

- Quarterly review meetings are held to review the Balance Scorecard Strategy measures of outcomes or KPI's.
- Ethnicity percentages, we hire local individuals in our global branches. .
- Age: we do not discriminate against age. There here is a wide diversity in employees ages as shown in the figure below):

- 100% compliance on approved working contracts.
- Our working related injuries target is at zero with zero related injuries for 2016.
- Our employee Satisfaction Survey was 79% for 2016 against the target of 70%.
- See Appendix for our:
 - ✓ Incentives
 - ✓ Fast Track Program
 - ✓ Link to the Social and Cultural Committee email and Facebook page.

Environment Principles

Assessment, Policy & Goals:

We have an Environment Policy since 2006 which is also part of our Quality Management system. we have identified “Operational Excellence” as our customer value proposition in our Strategy. Increase Utilization of Staff and Resources, and Enhance Project Quality Plan implementation are two strategic objectives, among others, that enable us to achieve Operational Excellence. Our goal is to decrease our recyclable waste and to shift to renewable energy whenever possible.

Implementation:

- We do and require our business partners to do an Environment Impact Assessment as part of our procedures within each Project Quality Plan to insure that the projects are in alignment with our Environment policy.
- The energy saving installations from LED’s light bulbs to motion sensors in sinks and automatic air dryers’ equipment in toilettes have decreased consumption of both energy and paper.
- Energy saving by installing reflective tinted sheets on windows.
- The “Go Green” initiative by the Corporate Image Management Unit in 2014 has led to:
 - Paper recycling in association with Jordan’s Environment Protection Institute.
 - Provided awareness prompts on energy saving.
 - Planted trees by CEC employees wherever they were in the world on 1/2017
 - CEC has supported an Environmental initiative related to waste recycling and reduction of plastic usage to preserve the environment by a group of 12 year-old students. They aimed at spreading awareness and to deliver their message to the decision-makers.
- The Creativity and Development Committee has embarked on installing solar panels at CEC’s HQ in Jordan as a renewable energy while substituting diesel consumption and CO2 emissions.
- We develop an Environment Policy Action Plan on a yearly basis.
- CEC is a member at the JES (Jordan Environment Society) and always contribute to its activities related to the Environment.

Measurement of Outcomes:

- Yearly external audits by the ISO insuring the implementation of our Environment Policy action plan.
- Yearly review of the Environment Policy results or KPI's by upper management.
- Yearly reporting by Jordan's Environment Protection Institute re our recycled paper. Outcomes of our achievement in recycling paper for the year is shared with our employees by giving the CO2 emissions and mature trees saved.
- See Appendix for our:
 - ✓ Environment Policy Action KPI's for the last 3 years.
 - ✓ Sample of the Recycled Poster which we have shared on the board.
 - ✓ Figures regarding the Solar Panels.

Anti-Corruption principles

Assessment, Policy & Goals:

Our core values in a statement is: "We are committed to our clients-through excellence- to provide our services with Integrity and Respect." Integrity is where we state that we do our services without favoritism.

Implementation:

- We ensure that our engineering services are provided to clients following our Quality Management System (QMS) which, in turn, is regularly audited by internal auditors. This system insures that every employee is doing his/her duties according to the QMS standards without bias or favoritism. This system ensures verification and validation by staff in independent departments to prove that all decisions are correctly taken.
- One of our initiatives within the Corporate Social Responsibility action plan-under the Clients & Business Partners beneficiary - is to "Emphasize CEC's Governance, Credibility and Transparency."
- We have participated in the CGNJ activities and events of 2016-2017. One such event was entitled, "Our Renaissance in Our Partnership": a session about the 10th principle of the UNGC (Anti-corruption) and how it relates in the MENA region

Measurement of Outcomes

The measures of the initiative “Emphasize CEC’s Governance, Credibility and Transparency” are:

- Measuring the number of non-compliance to CEC's Quality Management System (QMS) during the internal audits.
- Measuring the employees’ commitment to core values with a target of 80%.
- Implementation of CEC’s Governance Compliance Procedures with a target of 100%.
- Disclosure of CEC’s COP, or Sustainable Report on the UN Global Compact Website.
- See Appendix for our:
 - ✓ CSR Action Plan for 2015
 - ✓ Core Values

Note: CEC has Joined the Global Compact Local Network in Jordan in 1/2016 and renewed the membership in 2/2017.

INCENTIVE SYSTEM FOR CONSULTING ENGINEERING CENTER (SAJDI & PARTNERS)

Prepared by:
Eng. Izzat Sajdi (Managing Director)
Eng. Fawzi Abdoh (Strategy Management Manager)
Eng. Fawaz Sheikh Naser (Management Rep. for Quality)

ISSUE NO. 7
10 Mar., 2013

Introduction

CEC is committed to Reward performance with appropriate incentives and to Attract and continually develop good qualified staff .This commitment is expressed in the applied Balanced Score card performance management system. In addition to the incentives system formulated under this initiative CEC will provide and maintain a quality compensation program, including competitive salaries and benefits, for all its employees.

In formulating this incentive system, CEC is aiming at motivating and maintaining a stable, competent work force capable of serving our customers' needs effectively and efficiently for the long-term.

CEC Incentive System

It is the strategic objective LG2 CEC to Reward performance with appropriate incentives and to provide competitive compensation system that rewards all employees based on their achievements and contribution to the success of the company. Our incentive system has been developed and will be reviewed on yearly basis to ensure it is in compliance with CEC strategy.

A. Purpose and Scope

This system outlines the components of CEC employee incentive system, which applies to all employees.

The objectives of the incentive system are:

- To Reward performance with appropriate incentives to motivate and reward employees and business units for achievements in performance and for their contribution to CEC's success.
- To provide an incentive system that supports CEC objective to Attract and continually develop good qualified highly-talented and productive employees.
- To provide incentive system that is internally equitable and recognizes different levels of skill, effort, and responsibility required to perform various roles and tasks, as well as the criticality and value of those skills.
- To provide a system for directing employees to CEC strategy and align their performance to achieving CEC strategic objectives .

B. Major Responsibility Assignments

CEC's Managing Director, Head of Accounting section, Human Recourses Officer and MRQ are responsible for:

1. Reviewing the incentive system on yearly basis and ensuring that it meets it's objectives, approving any changes and communicating the system to all CEC staff
2. Applying the system
3. Establishing and monitoring practices and procedures that comply with this system..

All department, section and unit heads(HR, Procurement ,Store & Maintenance (P, S&M) officers and project managers) are responsible for providing accurate information about job content and employee performance.

C. Employee Compensation Package

CEC employees are provided with a total compensation package that includes salary, incentives, and benefits. A brief explanation of these various elements is provided below.

SALARY

CEC will continue to provide a good base salary to all employees in order to attract and retain quality personnel in all appropriate disciplines, including technical, management, and administrative staff. CEC base salary rates will be appropriate for the specific work condition.

Initial salary determination: The starting salary for new employee will be determined based on:

1. Internal benchmark with salaries of employees having the similar backgrounds, education and experience inside CEC.
2. External benchmark with salaries of employees having the similar backgrounds, education and experience outside CEC in local market.

Salary Increases: Annually all main office employees will be evaluated for salary increase considerations, in order to be eligible for a salary increase, the employee should be employed inside CEC for not less than 8 months prior to evaluation date, and only Top Management has the right to include employees have been employed for less than 8 months if deemed deserve the increase.

CEC management will take into consideration the following point during determination the salary increment for each employee:

1. Employee performance based on his mark from (Employee Evaluation Results), unless the management is not satisfied from the mark due to improper evaluation from the evaluator.
2. Inflation (cost-of-living increases)
3. Employee Total Salary and Seniority

The total salary increase is only determined by CEC Management based on the previous criteria, and it is not mandatory for CEC Management to explain to any employee about his salary increase criteria.

Salary adjustments: If seen necessary by CEC Management the employee salary will be adjusted if:

1. The employee obtained an advanced degree or professional registration that is beneficiary for improving the employee scope of work and aligned with CEC strategy.
2. The employee requests a salary adjustment along with written justification and explanation.

These two cases will be studied carefully by CEC Management and then it will decide if the employee deserves the salary adjustment and what is the amount of this salary adjustment. .

Fast track employee increase: If any employee has proved to have a exceptional performance and talent ,a fast track employee salary increase is given to him / her, and this salary increase is decided by the CEC Management.

INCENTIVES

CEC realizes that our success as a consulting engineering firm is tied directly to the performance of our qualified staff. Therefore in order to motivate these qualified staff CEC Management had decided to recognize and reward our staff, especially those who contribute most to the company's overall success. So CEC had developed the following incentive system:

1- Service awards:

CEC is rewarding each employee complete continuous ten years service with:

- 9 % salary increase
- Receiving his share and company' share in the Provident Fund

Note : It is the employee choice to select either to continue in the Provident Fund for another 10 years or to get the 9% salary increase.

2- Operational awards:

CEC encourages its employees for high performance, this high performance can be high productivity and efficiency, high commitment and disciplines, high cooperation with colleagues and boss (team work), high creativity and initiatively, effective leadership, continual professional development, and others.

Any senior employee who recognized this high performance at any employee will report that to the management using "Performance Form – P10/4.8.2" with full details of that high performance, and if the management agree and approve this high performance, the employee will get extra 2 marks to his total employee evaluation marks as an operational award.

3- Trainers awards:

CEC encourages its experienced qualified staff to share their experience and knowledge essential for achieving the CEC vision, mission, and strategically objectives with their colleagues, so a training award will be given to each staff member who conducts an effective training. This award will be five times the trainer hours rate based on his regular salary assuming that:

- Each month is 240 hours

Effective training should have an average effectiveness not less than 8 marks based on the "Training Evaluation Report – P10/4.7.3"

4- Publishing awards:

CEC sets incentives for educational development of its senior staff, so:

- 200 JD cash reward will be given for each staff member publishing an article in a peer-reviewed journal or in a recognized conference.
- The time needed for the preparation and presenting of the article/paper will be paid by CEC.

5- Employees participate in receiving a Reputable Award or Certificates to the CEC :

All CEC staff participating in the effort that enables CEC to get a reputable excellence award or certificate will be rewarded by CEC management by:

- Financial reward, the amount (JD) will be determined for each case by CEC Management.
- Or the employee (s) will be given a recognition letter.

6- Employee of the Month & Employee of the Year Awards:

CEC will reward each employee of month for both main office and supervision projects with:

- Giving him Recognition Certificate during meeting attended by all CEC staff
- One days holiday
- Extra 2.5 marks to his total employee evaluation marks at the end of the year

Also CEC will reward the employee of year with one week salary based on his salary on Dec. of that year (This award can be either paid as cash or as gift or as one week paid holiday).

7- Participating in Social and Cultural Committee Awards:

CEC management set incentives for improving participation in social activities (such as cultural, educational, sport, and environmental), so CEC management had formed a Social and Cultural committee by internal election, and each 100 % effective member will be given:

1. Extra 2.5 marks to his total employee evaluation marks at the end of the year. Only CEC management has the right to decide whether the participation of each employee is effective or not, and how much the extra marks will be given.
2. Recognition letter from CEC's Management.
3. 50 JD cash reward will be given for each active committee member

8- Long Term Performance Incentive (Stock Option Fund)

CEC will give all employees performance incentive bonus based on the achievement of the overall Balanced Scorecard, and at to the follows:

1. CEC management will select the key Employees to participate in the Stock Fund Option Program based on either:
 - Seniority (Head of sections/ Depts. /Specialties/Units)
 - High performance and good experience & loyalty with CEC
2. The Selected Employee shall be in service for at least one year.
3. All employees that have been selected will be considered as associates, and will be allowed to purchase up to certain amount of units at Fixed Price under Stock Option Fund Conditions & Terms.
4. The amount of incentive for each employee will be affected directly by:
 - The percentage of achievement of over whole Cascaded BSC.
 - The amount of Net Earning dedicated by CEC Management.
 - The percentage of employee stock option units as allocated by CEC Management.
5. The Incentive will not be given directly to the employee as cash and will be directed to his stock option fund account in two scenarios:
 - To repay the value of dedicated stock option units.
 - After settling the cost of all dedicated Stock Option Units, and at the end of each year, the employee is paid 25% of the incentive, and the rest is kept with the company in the employee's "Retirement Account".
6. The employee will utilize the increase of Stock Option Unit Price based on annual growth and increased in income of CEC, as well as he will not be given any annual rate on return based on the purchased units nor retirement fund.
7. The employee can only take in cash his Stock Option Fund according to the following conditions:
 - The employee reaches the age of 65 years old.
 - The employee has died
8. In this case the employee will take the value of his units at the present time as well as his saved retirement account; CEC has the right to pay this amount during 4 years based on CEC cash flow.
9. In case that employee decided to leave CEC at anytime without meeting the specified conditions in clause 7, he will not be able to take in cash his saving in stock option fund either units or retirement fund.

9- Project Management Allowance

CEC will give Study and Design Project Manager an allowance of amount [400 JD x Project Duration (Months) as stated in the Term of Reference] per each Study and Design Project he will manage, this allowance amount will be paid partially based on the percentage of invoices amount that has been collected conditionally that the project has been closed within the allocated Man Months.

10- Creativity & Development Incentive

CEC will give 75JD cash reward for each active employee(s) participate in the Creativity & Development Committee(s) that led to certain improvement or achievement to CEC' services or systems.

11- Employee that submitted valuable suggestions.

CEC will give 2 extra marks to the total employee evaluation mark for each employee submitted valuable suggestion and lead to important improvement in CEC Quality Management System or the Creativity & Development Plan.

BENEFITS

In addition to previous incentive system, CEC will continue providing its staff with many benefits. These benefits include:

- A comprehensive Medical Insurance for the eligible employees (regular full employees) and their dependents (spouse, , and unmarried children up to 22 years of age if a full-time student)
- Life Insurance is provided to CEC Eligible employees.
- Accidental Death & Accidental partial or complete Disability.

Career Path

CEC will promote its employees from level to another level of the Approved Career Path as per the following conditions:

- The employee worked at least 5 years in this level of the career path and got an average employee evaluation for these 5 years not less than 75%. **The employee cannot move to the level of Head of Business Unit (i.e. Manager of Department, Manager of Division, Head of Business Unit, and Head Specialty) unless this level becomes vacant.**
- The employee worked at least 3 years in this level of the career path and got an average employee evaluation for these 3 years not less than 82%. **The employee cannot move to the level of Head of Business Unit (i.e. Manager of Department, Manager of Division, Head of Business Unit, and Head Specialty) unless this level becomes vacant.**
