H.E. António Guterres
Secretary-General
United Nations
New York, NY 10017
USA

Dear Secretary General Guterres,

CEO commitment to the UN Global Compact

The energy BP produces serves to power economic growth and lift people out of poverty. The way heat, light and mobility are delivered is changing. We aim to anchor our business in these changing patterns of demand, rather than in the quest for supply. We have a real contribution to make to the world's ambition of a low carbon future.

We strive to be a world-class operator, a responsible corporate citizen and a good employer. We want to build enduring relationships with governments, customers, partners, suppliers and communities in the countries where we work.

We care about the impact of our decisions, large and small, on those around us. BP therefore strongly supports the United Nations Global Compact and its ten principles in the areas of human rights, labour, environment and anti-corruption.

In our annual Communication on Progress, which includes our Sustainability Report, we describe our actions to integrate Global Compact principles into our business strategy, culture and daily operations.

*Respectfully submitted,
Bob Dudley*
