Statement of Continuous Support for the UN Global Compact

Dear Readers,

On behalf of SAP, it is my honor to present our Communications on Progress in the [SAP Integrated Report 2018](#). In this experience, you will find a comprehensive assessment of a strong growth company. For seven years now, we have measured ourselves in a holistic fashion. This report is to empower you, our stakeholders, to make an informed judgement about the quality and sustainability of SAP.

At SAP, our purpose is to “help the world run better and improve people’s lives” by empowering our customers to create a better economy, society, and environment for the world. With our innovations, we can help customers run at their best. Being the best means our customers can connect people and information to address the world’s biggest challenges. That’s why we focus on engineering solutions to fuel innovation, foster equality, and spread opportunity across borders and cultures. With more than 425,000 customers and a broad ecosystem of around 18,800 partners, we can amplify our collective economic, social, and environmental impact.

SAP is an early endorser of the United Nations Global Compact with signature recorded in 2000. We remain committed to the Ten Principles and the UN Sustainable Development Goals. Technology-driven innovation underpins how SAP, together with our customers and our ecosystem, can execute initiatives across all 17 of the UN SDGs.

Very truly yours,

Bill McDermott
Chief Executive Officer SAP SE
