

Our contribution to the SDGs

Our Sustainability Action Plan, [This is Forward](#), is our way of defining the role we can play in supporting the [UN Sustainable Development Goals](#) (SDGs), which provide the global roadmap for sustainable development. Our strategy is closely aligned with the SDGs, with each of the commitment areas supporting one or more of the goals.

Our [Action on Drinks](#) commitments support the [UN Sustainable Development Goal 3](#), ensuring good health and wellbeing. By reducing the sugar in our drinks and evolving our recipes and portfolio to offer a greater choice of low sugar options, we're making a contribution to the global fight against obesity.

Our [Action on Packaging](#) commitments support the [UN Sustainable Development Goal 12](#), ensuring sustainable consumption by helping to substantially reduce waste generation through waste reduction, recycling and reuse and the [UN Sustainable Development Goal 14](#), protecting and sustainably use the oceans, seas and marine resources.

Our [Action on Society](#) commitments support the [UN Sustainable Development Goal 11](#), by contributing to making the communities in which we operate more inclusive and sustainable. Through this work, we also support the [UN Sustainable Development Goal 4](#), for inclusive and equitable quality education, the [UN Sustainable Development Goal 5](#), for gender equality; and the [UN Sustainable Development Goal 8](#), improving access to employment and work.

Our [Action on Water](#) commitments support the [UN Sustainable Development Goal 6](#), by contributing to global efforts to protect the future sustainability of our water resources.

Our [Action on Climate](#) commitments support the [UN Sustainable Development Goal 7](#) and the [UN Sustainable Development Goal 13](#). We are committed to playing our part in global efforts to tackle climate change, in line with the 2015 Paris Climate Change Agreement.

Our [Action on Supply Chain](#) commitments support the [UN Sustainable Development Goal 2](#), by promoting the development of sustainable agriculture, the [UN Sustainable Development Goal 8](#), by seeking to protect labour and human rights, and eradicate forced labour and modern slavery within our supply chain and the [UN Sustainable Development Goal 10](#), reducing inequality within countries.
