Dear Mr. Secretary-General:

Allergan committed to support the UN Global Compact principals in 2009. I am writing this letter to express our continued support for the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the 2030 Agenda for Sustainable Development, and the associated Sustainable Development Goals.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes Allergan's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress on an annual basis.

Sincerely yours,

Brent Saunders
