STATEMENT OF CONTINUED SUPPORT

Dear Mr. Secretary General,

With this letter I wish to confirm that MCI Management Center Innsbruck continues to support the Global Compact's Ten Principles regarding human rights, labour, environment, and anti-corruption.

Our statement of continued support expresses our strong commitment to advancing the principles within our remit, and communicates this commitment to the Global Compact as an organisation, to our internal and external stakeholders, and to the wider public.

MCI has been a strong supporter of sustainable and globally responsible business practices for many years. As an Advanced Signatory of PRME (Principles for Responsible Management Education), we have implemented and continue to develop a range of strategies and activities to embed responsibility, sustainability and ethics in our study programs and extracurricular learning offerings, our research endeavours, as well as in our outreach activities and our internal processes. This includes integration of the Global Compact Principles as well as the Sustainable Development Goals.

We are pleased to attach our 4th PRME Sharing Information on Progress (SIP) Report, which provides an overview as well as metrics regarding our activities in advancing the Principles for Responsible Management Education and the SDGs. It also includes our goals for the next two years. We are proud to present significant progress in this area, and are excited to share our achievements.

We are looking forward to our continued participation in the United National Global Compact.

Sincerely yours,

Dr. Andreas Altmann
