

November 2020

To our stakeholders:

I am pleased to confirm that KGH Customs Services reaffirms its' support to the Ten Principles of the United Nations Global Compact in the areas of Human Rights, Labor, Environment and Anti-Corruption.

Facilitating trade for sustainable growth is KGH's mission. It is our legacy and is our driving force forward. Through our knowledge, solutions, and the efforts of our employees, KGH creates value for our stakeholders.

However, the view of value creation is changing. Economic growth based on increased international trade is a prerequisite for many of the UN's 17 Sustainable Development Goals. At the same time, it is also necessary to consider social and environmental development for long-term value creation.

By cooperating with other stakeholders in the value chain, we strive to develop innovative and efficient solutions that further contribute to the goals. We engage in the societies we are part of through our own activities and by supporting other external initiatives.

In our KGH Sustainability Programme we express our focus areas, the sustainability goals we want to contribute to, and how we are working to achieve those. By this Programme we monitor and summarise what we already do, and it helps us to set a clear direction forward.

Practical actions taken in the last year are summarised in our Communication on Progress and incentives in the areas of Environment and Labor are communicated through our Business Report. We also commit to share this information with our stakeholders using our primary channels of communication.

Yours Sincerely,

A handwritten signature in blue ink, appearing to read 'Lars Börjesson'.

Lars Börjesson
CEO, KGH Group
