## Submission of Communication in Progress

Dear readers,

We are pleased to confirm that TRATON supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. With this communication, we again express our intent to implement those principles. We are committed to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals.

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication in Progress (COP) that describes our company's efforts to implement the Ten Principles. In this context we express with this statement our continues support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles.

Yours sincerely,
