A statement of continued support for the UN Global Compact

Düsseldorf, 11 May 2022

Dear Mr. Secretary General,

As Chief Executive Officer (CEO) of LEG Immobilien SE, I am proud to state our continuing support for the United Nations Global Compact's (UNGC) initiative and its ten principles on human rights, labour, the environment and anti-corruption.

Within our circle of influence, we are committed to upholding human rights, creating fair working conditions, promoting environmental and climate protection, and stand firmly against corruption and bribery in all its forms. Our annual Communication on Progress (COP) demonstrates the various measures that we have taken so far to support the UNGC principles in the past but also our continuing progress on integrating the UNGC principles into our corporate strategy and corporate culture.

We have consolidated the COP on our company's efforts of implementing the principles of the UNGC into our Sustainability Report 2021 for the first time. It includes references to our five key areas of our sustainability strategy, aligned ESG-topics, the allocation of the four thematic areas for the ten principles (human rights, labour, environment, anti-corruption) as well as relevant references to quantitative, non-financial metrics according to the GRI standard.

Sincerely yours,

Lars von Lackum
CEO
