Dear stakeholders,

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

The publication of our COP is delayed because we include the COP in our sustainability report and due to missing information the sustainability report could not be finalized yet.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by November 14, 2022 at the latest.

Sincerely yours,

Steffen Seehars  
Head of Sustainability TÜV Hessen
