Bezons, June 18, 2013

Dear Mr. Secretary-General,

Atos is an international information technology (IT) services group with 76,400 employees in 47 countries. Serving a global client base, it delivers hi-tech transactional services, consulting and technology services, systems integration and managed services.

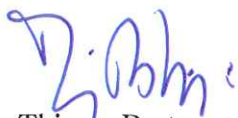

Corporate Social Responsibility is at the core of Atos' corporate strategy which ambition is to be recognized as a world leader in providing innovative IT solutions to help its clients become more sustainable.

I am pleased to confirm that Atos supports the ten principles of the Global Compact with respect to human rights, labor standards, protection of the environment and anti-corruption; and takes concrete actions to ensure these apply to all the entities of the Atos group. These actions are now reported in two documents which constitute our Integrated Report:

- the Atos Registration Document, including exhaustive company information, which is shared with the market, by an official deposit to the French "Autorité des Marchés Financiers";
- the Corporate Social Responsibility Report, which is an official and public statement and commitment of Atos.

Atos reiterates its commitment to the Global Compact towards its stakeholders, regardless of the nature of their relation with Atos. In addition, we reiterate the annual submission of a Communication on Progress (COP), which describes our group's efforts to implement the ten principles to improve our participation in the Global Compact.

Sincerely yours,

Thierry Breton
Chairman and CEO
