Dear Mr. Secretary-General,

I am pleased to confirm that TELUS Corporation supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption. Our commitment to these principles is longstanding as they have been an integral part of our business practices for many years as reported in our annual Corporate Social Responsibility reports.

Through this communication, we express our intent to continue to advance these principles within our sphere of influence. We are committed to continuing to make the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engage in collaborative projects, which advance the broader development goals of the United Nations. TELUS Corporation will make a clear statement of this commitment to our stakeholders and the general public.

We recognise that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact and annually thereafter according to the Global Compact Communication on Progress policy and through our annual Corporate Social Responsibility report.

Sincerely,
