Dear Secretary-General,

I am pleased to confirm that Haifa Group supports and is fully committed to the ten principles of the Global Compact on human rights, labor, environment and anti-corruption. We are delighted to express our intent to follow and implement the Global Compact principles. We see it as one of our main missions to make the Global Compact and its principles part of Haifa Group's long run strategy, business culture and the day-to-day operations of the Group.

Haifa Group is also committed to fulfill all of the **Sustainable Development Goals** (SDG) principals and to make sure we are following the complete set of goals to end poverty, protect the planet and ensure prosperity for all as part of a new sustainable development agenda. We fully agree and identify with your belief that the world body is "uniquely placed to overcome global challenges and achieve sustainable development".

Bringing advanced plant nutrition solutions to framers all over the world and striving to ensure sustainable food sources for the planet's population are our missions. As a Group that Pioneering and Knowledge Sharing are its business's DNA, we found the SDG agenda matching our core values. Therefore we are hereby delighted to declare that we have carefully learnt the SDG program, ensured and documented the **fulfillment of performance indicators** to the 17 SDG guidelines.

We recognize that a key requirement for Haifa Group's participation in the UN Global Compact is the submission of an annual **Communication on Progress (COP)**, a description of our efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the UN Global Compact, and annually thereafter according to the UN Global Compact COP policy. This includes:

- A statement signed by the chief executive expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the UN Global Compact.
- A description of practical actions (i.e., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the UN Global Compact principles in each of the four issue areas (human rights, labor, environment, anti-corruption).
- A measurement of outcomes (i.e., the degree to which performance indicators were met, or other qualitative or quantitative measurements of results).

Sincerely yours,

Motti Levin

Chief Executive Officer, Haifa Group
