Dear Mr. Secretary-General,

I am pleased to confirm that The Shell Company of Turkey supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express our intent to implement those principles. We are committed to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Shell Turkey will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency and Shell, as a Participant Member of UN Global Compact, has committed to submit an annual progress report on our global activities in accordance with the UN Global Compact COP policy, covering a description of practical actions that the company has taken to implement UN Global Compact principles accompanied by a measurement of outcomes.

We commit to formally submitting this report through our local chapter in Turkey on an annual basis.

We will also submit an annual statement, signed by our Country Chair in Turkey, to express continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles. This is *separate* from our initial letter of commitment to join the UN Global Compact.

Sincerely yours,

Ahmet Erdem
Country Chairperson, Shell Turkey
