His Excellency Mr. António Guterres  
Secretary-General  
United Nations  
New York, NY 10017

Dear Mr. Secretary-General:

I am pleased to confirm that Verisk Analytics, Inc. (“Verisk”) supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. With this communication we express our intent to implement those principles. We are committed to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of the Verisk family of companies and engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Verisk will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company’s efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on our progress within one year of joining the UN Global Compact, and annually thereafter according to the UN Global Compact COP policy. This includes:

- A statement signed by our chief executive officer expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles.
- A description of the practical actions that Verisk has taken or plans to undertake to implement the UN Global Compact in each of the four issue areas, including human rights, labour, environment and anti-corruption.
- A report on the qualitative or quantitative measurements of our outcomes.

It is our understanding that the UN Global Compact reflects shared values and principles between the United Nations and businesses such as ours, but that the UN Global Compact is not a grading or enforcement mechanism, nor does it involve any concepts of profit, intellectual property or technology transfers. Moreover, our participation in the UN Global Compact does not limit our freedom as permitted by

and Chief Executive Officer

law to oppose public or private sector activities which we do not believe are in the best interests of our company. We note that the general intentions behind the UN Global Compact may be implemented differently in different countries, in keeping with local laws and customs.

We are delighted to make an application to become a Participant of the UN Global Compact and look forward to your acceptance.

Sincerely,

A handwritten signature in black ink, appearing to read "Scott G. Stephenson", written over a horizontal line.

Scott G. Stephenson  
Chairman, President and Chief Executive Officer
