Dear Mr. Secretary-General,

I am pleased to confirm that Treedom supports the ten principles of the Global Compact with respect to environment, labour, human rights and anti-corruption.

With this statement, we express our intent to promote those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of strategy, mission and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Millenium Development Goals. Treedom will make a clear statement of this commitment to our stakeholders and the general public.

We do recognize that a core requirement for joining the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to enact the ten principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy.

Best regards,

Mr. Federico Garcea  
CEO, Treedom
