22 May 2012

Dear Mr Secretary-General

I am pleased to confirm that Royal Bafokeng Platinum Limited ("RBPlat") supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption.

RBPlat is a community-owned, mid-tier and listed Platinum producer located in Johannesburg, with its operations in Rustenburg, North West Province of South Africa. Our vision as a mining company is "*to seek and deliver the good from mining*"; we are guided in achieving this vision by our sustainability objectives and mission of leaving a lasting legacy through stakeholder beneficiation.

With this communication, we express our intent to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our Company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Millennium Development Goals. RBPlat will make a clear statement of this commitment to our stakeholder and the greater public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within *one* year of joining the Global Compact, and *annually* thereafter according to the Global Compact COP policy.

Sincerely Yours,

Mr. Steve Phiri
CEO: Royal Bafokeng Platinum Limited
