**Re: UN Global Compact commitment**

Dear Mr. Secretary-General,

It was a great pleasure to have had a private audience with you in June during the Sustainable Energy for All (SE4ALL) Forum. It is with great pleasure that I confirm SkyPower's commitment to the Global Compact's 10 principles on human rights, labour, environment and anti-corruption. With this communication, we express our intent to implement those principles.

SkyPower is proudly committed to making the Global Compact and its principles part of our company's strategy, culture and day-to-day operations, and to engaging in collaborative projects that advance the broader development goals of the United Nations, particularly the Millennium Development Goals. Furthermore, SkyPower will make a clear statement of this commitment to the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP), which describes our company's efforts to implement the 10 principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact, and annually thereafter, according to the Global Compact COP policy. This includes:

- A statement signed by me, SkyPower's President and Chief Executive Officer, expressing continued support for the Global Compact and renewing our ongoing commitment to the initiative and its principles.
- A description of practical actions (e.g.: disclosure of any relevant policies, procedures, activities) that SkyPower has taken (or plans to undertake) to implement the Global Compact principles in each of the four issue areas: human rights, labour, environment, anti-corruption.
- A measurement of outcomes (e.g.: the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

Sincerely yours,
