24th October 2015

Dear Mr. Secretary General,

I am pleased to confirm that Tuuli Sauren, of INSPIRIT International Communication sprl, supports the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s): promote and participate on communicating for best practices, networking with other organizations and educational institutions and professional associations to alleviate poverty in rural location within our industry, through our Sustainable Designers Initiative, which is also a body to communicate on human right abuses, environmentally detrimental practises and any other element which is violating Global Compacts Ten Principles.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

Tuuli Sauren
President and Founder
