Dear Mr. Secretary-General,

I am pleased to confirm that Syrian Enterprise & Business Centre supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption. With this communication, we express our intent to advance those principles within our spheres of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Millenium development Goals. Syrian Enterprise & Business Centre will make a clear startment of this commitment to our stakeholders and the general public.

We recognize that a key requirment for participation in the Global Compact is the annual submmision of a Communication on Progress (COP) that describes our company's efforts to implement the ten principlis. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact, and every year thereafter according to the Global Compact COP policy.

Sincerely yours,

Ms. Noha Chuck  
CEO
