Request for a grace period

Ladies and gentlemen,

The Bosch Group puts high priority on the implementation of the Ten Principles into daily business practices. To fulfill its commitment as a responsible member of the Global Compact Family the Bosch Group is currently institutionalizing aspects of sustainability on central decision making level. The Bosch Group is aiming to include first results of this restructuring process into its latest Communication on Progress, due May 10th. Since the process of reorganization is still underway, the Bosch Group kindly request additional time for COP submission thereby enabling us to include those latest developments.

Yours sincerely
