Essilor International 2011 renewed commitment to make the Global Compact's ten principles part of their business strategies and their day-to-day operations

On March 20th 2003, Georg Kell, Executive Head, Global Compact, send me a letter thanking Essilor International for our committment to implement the Global Compact's principles and to use the Compact as a basis for advancing responsible corporate citizenship.

Eight years after, Essilor International is proud to continue to support the ten principles of the Global Compact and to belong to five major Socially Responsible Indices, ASPI Eurozone®, ECPI® Ethical Index EURO®, FTSE4Good, Dow Jones Sustainability Index (DJSI) and Ethibel Excellence.

I am proud to renew today this committment of Essilor International together with our Communication On Progress.

Xavier FONTANET
Chairman of the Board of Directors
