

HANDS ON the Better Tomorrow Plan

The Better Tomorrow Plan is
Sodexo's sustainability plan
for a better future

#5 - June 2011

Sustainable Seafood @ Sodexo

As part of our Better Tomorrow Plan, Sodexo will source sustainable fish and seafood in all the countries where we operate by 2015.

With two intermediate steps:

1. By August 2011, Sodexo will no longer serve any seafood species which are identified as being at risk.
2. By 2012, the majority of fish covered by international contracts will be sustainably sourced.

On June 8, Sodexo celebrates World Oceans Day through a worldwide campaign aimed at raising awareness of all stakeholders on Sustainable Fish & Seafood and inform on our strategy and actions.

Be engaged with us!

Support the development of Local Communities

Fostering local employability – Tanzania

In 2010, Sodexo was granted 'Approved Centre' status by The City & Guilds of London Institute. This status provides a unique opportunity to its local staff to develop their skills within the hospitality industry through an external training body.
