

Headquarters

RB/MS/08/2011/021

To Global Compact Office and Stakeholders;

Reference to Bank Audi Syria's commitment toward Global Compact in presenting an annual Communication on Progress (COP), which is a public disclosure to stakeholders (e.g., investors, consumers, civil society and Governments) on progress made in implementing the ten principles of the UN Global Compact, and in supporting broad UN development goals.

Unfortunately, due to the current circumstances, our institution has been processing several urgent projects which caused a delay in submitting the requested documents.

In this regard, you are kindly requested to accept our appeal for a deadline extension of 90 days, noting that presenting Bank Audi Syria's COP for GC is considered one of our top priorities to be processed and finalized within very short period of time.

Appreciate accepting our presented grace period, noting that this task is currently under completion process and it will be posted on your website shortly.

Again, appreciate your cooperation and understanding.

Regards,

Maha S. Nasser
Head Of Communication Unit
Bank Audi Syria sa
