

Leadership Statement of continued support for the UN Global Compact

Sayga Investment Company is proud to be a signatory of the UNGC.

The Global Compact identifies ten universal principles on human rights, labor, the environment, and anti – corruption, and requires companies around the world to support and abide by these principles. The signing of this agreement reaffirms our commitment to pursuing efforts in corporate social responsibility; these ten principles are aligned with our Operating Principles and Values Policy guide and with how we want to do business.

Sayga has been supportive of the UNGC Sudan Network since before its launch and has advocated for the UNGC within DAL Group premises and via DAL Group's Forums.

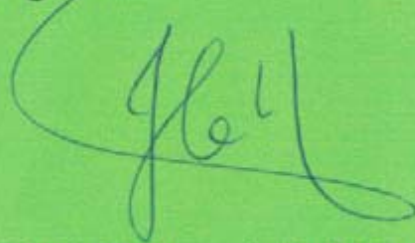

In 2010 we won the CSR Arabia Award for Best Project and we consider that as recognition for our efforts to add societal value and we acknowledge it as an encouragement to continue striving to add more value and achieve greater impact.

We reassert our commitment to the UNGC and to further advancing its efforts to help achieve the sustainable development of societies and the attainment of Millennium Development Goals, by promoting corporate responsibility and by learning and adopting best practices from all around the globe.

We realize that this is a journey where we *'learn, relearn and unlearn'* and it is an ongoing process for continuous progress.

Below is our first communication on progress since formally becoming a signatory and our 'Sustainability Highlights Report -2010' serves as a more detailed document to reflect achievements and current status.
