To whom it may concern:

We recognize that a key requirement for participation in the Global Compact is the annual report of a Communication on Progress (COP), a description of practical actions of our bank over the last year.

We are to inform that we are a bit late in creating, sharing and posting our Communication on Progress report. We decided to prepare the COP report according to the GRI C standards and this is a complex process to go through for the first time.

Now we are on the finalizing stage of our report creation and we ask for an extension period in order to be able to submit a COP that describes our bank's efforts and progress in implementation of the ten principles of the Global Compact in the best quality possible way. Our report of the Communication on Progress will be posted on the Global Compact website till the 30<sup>th</sup> of December.

**Best regards**
